A tree was blown down across a road a	along with several small tree limbs			

A tree was blown down across a road along with several small tree limbs.

On the 27th a weather disturbance approached the region from the north, which caused a strong thunderstorm of affect Bolivar County. On the 28th and 29th, an upper disturbance came across the region in northwest flow around a strong ridge of high pressure causing some severe storms to cross the region. A surface front passed through the region on the 29th, which caused another round of severe storms.
